NOTICE

River Site Reserve

D-10

110

July 1, 1910.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions I recommend the withdrawal for water-power sites of the following areas:

ORDER OF WITHDRAWAL.

Power-Site Reserves Nos. 6 to 13, inclusive.

It is hereby ordered that those certain orders of withdrawal made heretofore:

On May 27, 1909, described as Temporary Power-site Withdrawal No. 6; Wyo.
On May 28, 1909, described as Temporary Power-site Withdrawal No. 7; Utah
On May 29, 1909, described as Temporary Power-site Withdrawal No. 8; Idaho
On May 29, 1909, described as Temporary Power-site Withdrawal No. 9; Mont.
On May 29, 1909, described as Temporary Power-site Withdrawal No.10; "
On May 29, 1909, described as Temporary Power-site Withdrawal No.11; "
On June 5, 1909, described as Temporary Power-site Withdrawal No.12; Wyo.
On June 7, 1909, described as Temporary Power-site Withdrawal No.13; "

and including the lands more particularly described and set forth below, be, and the same are hereby ratified, confirmed, and continued in full force and effect, and the lands reserved for water-power sites, subject to all of the provisions, limitations, exceptions, and conditions contained in the act of Congress entitled "An Act to authorize the President of the United States to make withdrawals of public lands in certain cases," approved June 25, 1910:

R. S. R. No. 9

See memo. of June 28, 1910 in D-90-b, containing instructions to change T. 13 N. R 2 W. to Read T. 13 N. R 3 W before photographing. — Reserve No. 9.
also in Reserve No. 13 - page 2 - See that in T. 42 N. R. 100 W, lot 1, Sec. 6 reads clearly.

Very respectfully,

Geo. Otis Smith

Director.

July /. 1910.
Respectfully referred to the President with the recommendation that same be approved.

R. A. Ballinger
Secretary

Approved July 2, 1910
and referred to the Secretary of the Interior.

Wm. H. Taft.
President.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions of April 23, I have the honor to submit the following recommendation which involves 6,006 acres, 1,687 being entered land:

TEMPORARY POWER-SITE WITHDRAWAL No. 9.

(Missouri River, Montana)

In aid of proposed legislation affecting the disposal of the water-power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received, or final certificate of entry issued until further orders.

(Montana Principal Meridian)

November 8, 1909.

The Honorable,

The Secretary of the Interior.

Sir:

On July 13, 14 and 15, 1909, I recommended the restoration of certain lands included in Power-Site Withdrawals Nos. 9 and 10, it having appeared from field examination that, while all the lands were located along stretches of rivers where there is power, the location and extent of private lands are such that the United States cannot control the whole of the possible sites and flowage areas.

It appearing desirable, for the purpose of beneficial regulation, to withhold tracts so situated, I desire to withdraw my recommendations of Restorations of July 13, 14, and 15, and to this end make the following recommendation:

In aid of proposed legislation affecting the disposal of water-power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received or final certificate of entry issued until further orders.

June 7, 1909.

The Honorable,

See P. D. R. No. 16

The Secretary of the Interior.

Sir:

In accordance with your instructions of April 23, I have the honor to submit the following recommendation which involves 288.47 acres, all of which is vacant land:

TEMPORARY POWER-SITE WITHDRAWAL No. 19.

(Flat Head River, Montana.2

In aid of proposed legislation affecting the disposal of the water-power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof but no purchase money will be received or final certificate of entry issued until further orders.

(Montana Principal Meridian)

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions of April 23, 1909, I have the honor to submit the following recommendation, which involves 475 acres, 85 acres being entered:

TEMPORARY POWER SITE WITHDRAWAL NO. 109.

Red Rock Creek No. 2, Montana.

In aid of proposed legislation affecting the disposal of water power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received or final certificate of entry issued until further orders.

Montana Meridian.

EP

February 9, 1910.

See P. S. R. No. 109

The Honorable,

The Secretary of the Interior.

Sir:

On December 31, 1908, on recommendation of the Reclamation Service, 271,000 acres of land along the Big Horn River in Wyoming were withdrawn under the First Form of Reclamation Act in connection with the Yellowstone project, Wyoming. On April 5, 1909, the Reclamation Service recommended this land to be restored, for the reason that "it no longer appears necessary to the interest of the project," and the lands were accordingly restored by you on April 6, 1909.

On May 25, 1909, the Reclamation Service transmitted to this office a copy of this recommendation of restoration, together with other papers, with the statement that the same was a temporary power site withdrawal. The list was therefore reviewed in this office and it was reported to me that the lands withdrawn had no value for power purposes. No inquiry was therefore made at the General Land Office regarding ownership of the land. At the same time it was reported to me that the 54,400 acres of land along the Big Horn River in Montana, which had been withdrawn under the First Form of Reclamation Act on February 16, 1909, and restored on April 7, 1909, contained valuable power sites. Examination of the records showed

LAND CLASSIFICATION BOARD FILES
PLEASE RETURN TO THE SECRETARY

A.C.V.

WBH checked by MWB

that with regard to this portion of the river, half of it was in the Crow Indian Reservation, and it was felt that the ownership by the Indians would prevent development at these points, except with proper stipulations.

On September 3, 1909, I submitted to you tables comparing former withdrawals with those made under your administration, in which it was shown that this office had recommended no withdrawals on the Big Horn River either in Wyoming or Montana. With respect to the Wyoming portion of the river it was stated that "all lands along the river of value for power purposes were in private ownership at the time of the original withdrawal." This statement is incorrect, and its appearance in the table was due to a confusion of the facts in this case with those on the Swan River in Montana where all the lands were in private ownership. This statement was an accidental substitution for the one which was prepared to appear at this point, namely, "There is no power on this stream."

It now appears that the report of the Chief Hydrographer to me, that there is no power on the Big Horn River in Wyoming, was based on incomplete and incorrect information, and in order that this error may be corrected and that there may be no question whatever regarding the protection of power sites on the Big Horn River in Montana, I recommend the following withdrawal:

TEMPORARY POWER SITE WITHDRAWAL NO. 115.

Big Horn River, Montana and Wyoming.

In aid of proposed legislation affecting the disposal of water power sites on the public domain, all public lands in the fol-

lowing list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received or final certificate of entry issued until further orders.

LAND CLASSIFICATION BOARD FILES.
PLEASE RETURN

September 27, 1910.

The Honorable,

The Secretary of the Interior.

Sir:

All lands along the Flathead River in the Flathead Indian Reservation below Flathead Lake, Montana, have been withdrawn under the authority given by Sec. 22 of the Act of March 22, 1909, (35 Stats. 795), because of their value for power sites but no action has been taken withdrawing the lands along the shores of Flathead Lake, which have a very large power value in connection with the lands already withdrawn along the river.

The Chief Hydrographer of the Survey reports from the field that while the withdrawals along the river between the Lake and Dixon, Montana, control possible power development to the amount of 77,000 horsepower, the power value of the same portion of the stream will be increased to 259,000 horsepower, or almost 3½ times, by the storage of water in the Lake to a height of 3 feet above the maximum high water of the Lake and 9 feet above the high water of 1909. It is therefore fully as important for the Government to control the storage possibilities of the Lake as to control the power development along the river.

An examination of the records of the General Land Office and the Indian Office shows that approximately 40% of the shore line of the Lake is patented land and that the remaining 60% is either covered by trust patents of Indian allottees, which can be cancelled under the provisions of the Act

151

of June 25, 1910, (Public 313), or is vacant land which is now withdrawn for survey preparatory to disposition under the provisions of Sec. 23, of the Act of April 12, 1910, (Public 130).

The matter is of such importance and the magnitude of the power so great that I recommend the reservation of the lands adjoining the Lake. This reservation can in my opinion be so made that it will give the Government control of the situation and at the same time permit the development of the "villa sites" or summer homes contemplated by the provisions of Sec. 23, of the Act of April 12, 1910, (Public 130), and will allow Indian allottees to retain allotments in the neighborhood of the Lake. To this end the following order is recommended for consideration and appropriate action by yourself and the President:

ORDER OF WITHDRAWAL.

Power-Site Reserve No. 151.

Flathead Lake, Montana.

It is hereby ordered:

(1) That so far as any of the following described tracts are public lands subject to the provisions of the Act of June 25, 1910, (Public 303), all portions thereof which lie within a belt extending from the Lake to 100 feet inland from the high water mark of 1909, be and the same are hereby withdrawn from settlement, location, sale, or entry, and reserved for water power sites, subject to all the provisions, limitations, exceptions, and conditions of said act;

(2) That so far as any of the following described lands are subject to the provisions of Secs. 13 and 14 of the Act of June 25, 1910, (Public 313), all portions thereof which lie within a belt extending from the Lake

to 100 feet inland from the high water mark of 1909, be and the same are hereby reserved from location, entry, sale, allotment, or any other disposition for the reason that the same are valuable for power sites;

(3) That the Commissioner of the General Land Office shall instruct the surveyors engaged under the provisions of Sec. 23, of the Act of April 12, 1910, (Public 130), in subdividing any of the lands hereafter described, to lot the lands hereby withdrawn and that he will cause such other surveys to be made as are necessary to identify the portions of the Indian allotments which the Secretary of the Interior will cancel under the provisions of Sec. 14, of the Act of June 28, 1910, (Public 313);

(4) That the Secretary of the Interior under the provisions of Sec. 14, of the Act of June 25, 1910, (Public 313), shall proceed to cancel the trust patents to Indian allottees so far as they affect the portions of tracts hereby ordered withdrawn:

Montana Principal Meridian.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions, I recommend the withdrawal for water-power sites of the following areas, involving 8,315 acres:

ORDER OF WITHDRAWAL

Power-Site Reserve No. 155.

Stillwater River, Montana.

It is hereby ordered that the following described lands be, and the same are hereby withdrawn from settlement, location, sale or entry, and reserved for water-power sites, subject to all the provisions, limitations, exceptions, and conditions contained in the act of Congress entitled "An Act to authorize the President of the United States to make withdrawals of public lands in certain cases", approved June 25, 1910:

Montana Principal Meridian.

March 8, 1911.

The Honorable,

The Secretary of the Interior.

Sir:

By reference from your office on January 3, 1911, I am in receipt of the recommendation of the Director of the Reclamation Service for the restoration of certain lands withdrawn by Departmental Order of February 7, 1905, under the second form in connection with the Madison River Project, Montana, concerning which you request that any lands valuable for power purposes which are included therein be withdrawn under the Act of June 25, 1910. I have now received the report of the District Engineer to whom the matter was referred for investigation, which indicates that the lands bordering the Missouri River in Ts. 3 and 4 N., R. 2 E., are valuable in connection with future power development. The unpatented lands in T. 4 N., R. 2 E., were included in Power-Site Reserve No. 9, by Executive Order of July 2, 1910. I accordingly recommend the submission to the President for appropriate action of the following order of withdrawal involving 759 acres.

Very respectfully,

Geo. Otis Smith

Director.

March , 1911.
Respectfully referred to the President with favorable recommendation.

ORDER OF WITHDRAWAL

Power Site Reserve No. 349

Transmission line in Montana

Under and pursuant to the provisions of the act of Congress approved June 25, 1910 (36 Stat., 847), entitled "An act to authorize the President of the United States to make withdrawals of public lands in certain cases," as amended by act of Congress approved August 24, 1912 (37 Stat., 497), it is hereby ordered that the following described lands be, and the same are hereby, withdrawn from settlement, location, sale, or entry and reserved for the purposes of electrical transmission lines:

All lands of the United States under the jurisdiction of the Interior Department for the purposes of the act of Congress approved March 4, 1911 (36 Stat., 1253-1254), within 90 feet on either side of the center line of the right of way granted under said act of March 4, 1911, by the head of the Department of the Interior on January 6, 1913, to the Great Falls Power Company in approval of its applications (designated Great Falls 05707 and Helena 05777, 05778, 05779, 05780, and 05781), on the location shown on maps filed with said applications and described as follows: Eight maps entitled "Steel tower line of the Great Falls Power Company" and designated, respectively, Sheet 2, Helena 05777; Sheet 3, Helena 05778; Sheet 4, Helena 05779; Sheet 5, Helena 05780; Sheet 6, Helena 05781; Sheets 7, 8, and 9, Great Falls 05707.

This order of withdrawal is subject to the aforesaid grant of right of way and affects the legal subdivisions of land hereinafter listed.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your general instructions, I recommend the withdrawal for water-power sites of the following areas, involving approximately 440 acres, and also the modification of such withdrawal that will authorize the issuance of water-power permits to J. H. Cline for the utilization of the site under the act of February 15, 1901 (31 Stat., 790), in pursuance of application Kalispell 05419 now pending in the Department of the Interior.

Respectfully,

Philip S. Smith.

Acting Director.

Oct. 9, 1915

Respectfully referred to the President with favorable recommendation.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your general instructions, I recommend the withdrawal for power-site reserve of the land indicated in the following order of withdrawal (Power Site Reserve No. 741), involving an area of 280 acres in Montana, and the modification of such reserve, to the extent of allowing the issuance of permits to Fred Herzog and John N. Saxton, an association, for the utilization of a power-site under the act of February 15, 1901 (31 Stat., 790), in pursuance of an application designated Kalispell 07409, now pending in the Department of the Interior.

Respectfully,

April 8, 1920

Respectfully referred to the President for favorable recommendation.

Director.

The Honorable,

The Secretary of the Interior.

Sir:

It has been brought to the attention of the Geological Survey that the irrigation reservoir at present constructed in townships 13 and 14 S., Rs. 5 and 6 W., Montana Meridian, Montana, is capable of enlargement to provide additional storage facilities.

In order that the additional lands necessary to this enlargement may be reserved from other forms of appropriation, I recommend, in accordance with your instructions of July 6, 1910, the submission to the President for appropriate action, of the following order of withdrawal. This order affects 15,640 acres, of which 880 acres are entered lands.

Very respectfully,

July 1911.
Respectfully referred to the President with favorable recommendation.

July 6, 1911.

The Honorable,

The Secretary of the Interior.

Sir:

It has been brought to the attention of the Geological Survey that the irrigation reservoir at present constructed in township 18 and 14 S., Ra. 5 and 6 W., Montana Meridian, Montana, is capable of enlargement to provide additional storage facilities.

In order that the additional lands necessary to this enlargement may be reserved from other forms of appropriation, I recommend, in accordance with your instructions of July 6, 1910, the submission to the President for appropriate action, of the following order of withdrawal. This order affects 15,660 acres, of which 880 acres are entered lands.

Very respectfully,

Director.

July 1911.
Respectfully referred to the President with favorable recommendation.

Secretary.

ORDER OF WITHDRAWAL.

Reservoir Site Reserve No. 4.

It is hereby ordered that all public lands included in the following list be, and the same are hereby withdrawn from settlement,

location, sale, or entry, and reserved for use as reservoirs in connection with irrigation, subject to all the provisions, limitations, exceptions and conditions contained in the Act of Congress entitled, "An Act to authorize the President of the United States to make withdrawals of public lands in certain cases", approved June 25, 1910, and subject also to the allowance of right of way applications for the purpose of irrigation approved under the provisions of the Act of March 3, 1891 (26 Stat. 1095).

The Secretary of the Interior.

Sir:

In accordance with your general instructions, I recommend the approval of the classification as power-site lands (Power Site Classification No. 47, Montana No. 2), of the following lands, involving approximately 26,168 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on July 10, 1922.

Respectfully,

Geo. Otis Smith

Director.

APR 28 1925

The Honorable,

The Secretary of the Interior.

Sir:

The lands listed in the accompanying proposed order of classification are in the Absaroka National Forest. They are crossed by a proposed water-power conduit, for which a permit was issued by the Department of Agriculture February 2, 1917, to F. A. Krieger of Livingston, Montana. A blueprint copy of the right-of-way map is filed in the General Land Office under 633358 or 693358 Forest Service. The lands are obviously valuable for power-site purposes and in accordance with your general instructions I recommend the approval of the classification as power-site lands (Power Site Classification No. 94, Montana No. 5) of the following areas, involving approximately 1,188 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on April 8, 1925.

Respectfully,

Geo. Otis Smith

Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

LAND CLASSIFICATION BRANCH

POWER SITE CLASSIFICATION NO. 94

Montana No. 5.

Crevasse Creek.

Under and pursuant to the provisions of the act of Congress approved March 3, 1879 (20 Stat., 394), I hereby classify as power sites the lands hereinafter described in so far as title thereto remains in the United States, and recommend that this classification be given full force and effect under Section 24 of the act of Congress approved June 10, 1920 (41 Stat., 1063):

Montana Meridian

T. 9 S., R. 9 E., Sec. 11, lot 4, S½ of SW¼;

MAY 9 - 1925

The Honorable,

The Secretary of the Interior.

Sir:

The accompanying proposed order of classification includes lands which lie within the flow line of a proposed reservoir site on Big Hole River. The principal use of the reservoir at the present time may be for irrigation purposes but information available in the Geological Survey indicates that they have sufficient value as power sites in connection with possible future water-power development to justify their classification as power-site lands. In accordance with your general instructions, therefore, I recommend the classification as power-site lands (Power Site Classification No. 103, Montana No. 6) of the following areas, involving approximately 920 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on May 2, 1925.

Respectfully,

W. C. Mendenhall

Acting Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

JUL 22 1925

The Honorable,

The Secretary of the Interior.

Sir:

Application was filed July 14, 1924 (Billings 018061), by the Montana Power Company under the act of February 15, 1901 (31 Stat., 790), for final permit to use right of way across certain Indian allotted lands of the Crow reservation in Big Horn and Yellowstone counties, for a transmission line from Billings to Colstrip, Montana. The map of location filed with the application shows that the line crosses certain other lands which have not been alienated from the public domain. In accordance with your general instructions, therefore, I recommend the classification as power-site lands (Power Site Classification No. 112, Montana No. 7) of the following areas involving approximately 30 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on July 13, 1925.

Respectfully,

Geo. Otis Smith

Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

JAN 26 1927

The Honorable,

The Secretary of the Interior.

Sir:

The accompanying order of classification embraces lands in Montana which are occupied by a transmission line of the Great Falls Power Company. An amended location from a point on the company's Sun River Line running more directly to Choteau received departmental approval on January 14, 1927, and at the same time abandonment was accepted of the unused portions of the Sun River Line and the Choteau Branch. As lands hereinafter listed are used for the transmission of power, I recommend the approval of the classification as power-site lands (Power Site Classification No. 167, Montana No. 8) of the following areas involving approximately 43 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on December 10, 1926.

Respectfully,

Geo. Otis Smith
Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

MAY 24 1929

The Honorable,

The Secretary of the Interior.

Sir:

The following proposed order of classification embraces lands adjacent to the constructed transmission lines of the Chicago, Milwaukee & St. Paul Railway Company in Montana. Since these lands are occupied and used for the transmission of power I recommend the approval of the classification as power site lands (Power Site Classification No. 230, Montana No. 9) of the following areas involving approximately 49 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on May 21, 1929.

Respectfully,

W. C. Mendenhall
Acting Director.

I concur:

Commissioner, General Land Office.

NOV 22 1929

The Honorable,

The Secretary of the Interior.

Sir:

The accompanying order of classification embraces lands adjacent to Missouri River in Montana which are affected by a proposed project of the Montana Power Company. This project has an estimated potential capacity of approximately 50,000 horsepower. As development is feasible and will require the use of the lands hereinafter listed, I recommend the approval of the classification as power-site lands (Power Site Classification No. 243, Montana No. 13) of the following areas, involving approximately 1,070 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on November 19, 1929.

Respectfully,

Julian D. Sears
Acting Director.

I concur:

Commissioner, General Land Office.

FEB 15 1930

The Honorable,

The Secretary of the Interior.

Sir:

The accompanying order of classification embraces public lands in Montana, which are traversed by an electric transmission line of The Montana Power Company, successors in interest to the Montana Power Company, to which a permit under the act of May 14, 1896 (29 Stat., 120), was granted by the Secretary of the Interior on June 5, 1899. As the lands are used and required for power purposes, I recommend the approval of the classification as power-site lands (Power Site Classification No. 249, Montana No. 14) of the following described areas involving approximately 61 acres. The lands listed are all shown to be public lands by search of status made by an employee of the Geological Survey on February 12, 1930.

Respectfully,

Geo. Otis Smith

Director.

The Honorable,

The Secretary of the Interior.

Sir:

The accompanying order of classification embraces lands near Meadow Creek, Idaho, adjacent to those withdrawn in Power Site Classification No. 280 and lands along Whitetail Creek, Montana, adjacent to those withdrawn in Power Site Reserve No. 20.

It was the intent and purpose of the Geological Survey to include the land listed in the accompanying order in the power site reserves to which such land is contiguous. However, at the time these reserves were created the official land office plats had not been executed and the location of the land was of necessity only approximately determined. It was contemplated that a revised description would be prepared after survey in accordance with the provisions of Departmental order of April 25, 1912. The language used in the former orders has been construed by the General Land Office in the light of recent surveys to include only part of the power site lands. Accordingly the remaining land intended to be withdrawn is listed in the accompanying order. Four other tracts are of like character and similarly situated but cannot be withdrawn because they are within sec. 36, T. 3 N., R. 5 W., Principal meridian, a school section, the survey of which was accepted June 3, 1935. I recommend the approval of this order (Power Site Classification No. 303, Whitetail Creek, Montana, and Meadow Creek, Idaho) involving an area of approximately 240 acres. The lands are shown to be public lands by search of status made by an employee of the Geological Survey on June 30, 1937.

Respectfully,

I concur.

Julian D. Sears

Commissioner, General Land Office Acting Director.

See following letter dated July 16/09

July 14, 1909.

The Honorable,

The Secretary of the Interior.

Sir:

I have the honor to recommend the restoration to entry, selection, disposal, settlement, or location, and the release from suspension of all existing claims, filings and entries in the following areas included in Temporary Power Site Withdrawal No. 10, approved by you May 29, 1909;

(Montana Principal Meridian)

T., 2 S., R. 2 E. Lots Nos. 1, 2, 7, 8, 9, 10, 13, and 14, NW¼ of NE¼ Sec. 6;
Lots Nos. 1, 2, 5, 6, 7, 8, 9, and 10, NE¼ of NW¼, SW¼ of NW¼, NW¼ of SE¼, Sec. 7;
Lots Nos. 1, 2, and 3, SE¼ of NW¼, Sec. 30;

T., 2 S., R. 1 E. Lots Nos. 1, 2, 3, 4, and 5, SW¼ of NE¼, Sec. 25;
Lots No. 1, Sec. 36;
Lots Nos. 1, 2, and 3, NW¼ of SE¼ and islands adjacent thereto, Sec. 35;

This withdrawal has been examined by Mr. M. O. Leighton, Chief Hydrographer of the Survey, and he reports: "There is no power along this reach of the river except that which might be

created by the erection of high dams and the consequent formation of large reservoirs. The patented lands stand in the way of such a scheme."

The area included in this restoration is 1,112 acres, none of which is entered land, leaving 30,851 acres, of which 1,326 acres are entered, still included in Temporary Power Site Withdrawal No. 10.

Very respectfully,

Geo. Otis Smith

Director.

Approved July 15, 1909

LCB MLF

July 15, 1909.

The Honorable,

The Secretary of the Interior.

Sir:

I have the honor to recommend the restoration to entry, selection, disposal, settlement, or location, and the release from suspension of all existing claims, filings, and entries in the following areas included in Temporary Power Site Withdrawal No. 10 approved by you May 29, 1909:

(Montana Principal Meridian)

T. 1 N., R. 2 W., S ½ of NE¼, S ½ of NW¼, S ½, Sec. 20 (Unsurveyed);
Lots Nos. 1, 2, 3, 4, 5, 6, 7, and 8, NE¼ of SE¼, S ½ of SW ¼, Sec. 22;
Lots Nos. 1 to 13, inclusive, SW ¼ of NE ¼, S ½ of NW¼, Sec. 26;

T. 1 N., R. 3 W., W ½ and SE ¼ of NW¼, SW¼, SW¼ of SE¼, Sec. 12;
NE¼, N ½ of SE ¼, Sec. 24;

This withdrawal has been examined by Mr. M. O. Leighton, Chief Hydrographer of the Survey, and he reports: "This reach of Jefferson River had possibilities for a limited amount of power, but the whole distance would have been required. It

LAND CLASSIFICATION BOARD FILES

has a fairly steep but quite uniform grade with no falls or rapids; but Sec. 21, T. 1 N., R. 2 W., is necessary and this is patented. Even if this were not so, the railroads (Chicago, Milwaukee and St. Paul on the right bank and the Northern Pacific on the left) effectually prevent power development except at an expense hugely disproportionate."

Other portions of Temporary Power Site Withdrawal No. 10, which have been examined by Mr. Leighton, are found to contain valuable power sites.

The area included in this restoration is 1,630 acres, 793 acres being entered, leaving 29, 221 acres, of which 533 are entered, still included in Temporary Power Site Withdrawal No. 10.

Very respectfully,

Director.

Approved July 16, 1909

Sir:

I respectfully recommend the restoration to entry, selection, disposal, settlement or location and the release from suspension of all existing claims, filings, and entries covering lands in the following areas:

(Montana Principal Meridian)

T. 13 N., R. 2 W., Lot 10, Sec. 2,
Lots 4, 5, W½ of SW¼, SE¼ of SW¼ (exclusive of patented mineral entries) Sec. 12,
Lots 5 and 6, Sec. 13,
Lots 1, 2, 3, 5, 6, and 7, NW¼ of SE¼ (exclusive of patented mineral entries) Sec. 14.

LAND CLASSIFICATION BOARD FILES
PLEASE RETURN TO THE SECRETARY

In aid of proposed legislation affecting the disposal of the Water-power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received or final certificates of entry issued until further orders:

(Montana Principal Meridian)

T. 13 N., R. 3 W., Lot 10, Sec. 2,
Lots 4, 5, W½ of SW¼, SE¼ of SW¼ (exclusive of patented mineral entries) Sec. 12,
Lots 5 and 6, Sec. 13,
Lots 1, 2, 3, 5, 6, and 7, NW¼ of SE¼ (exclusive of patented mineral entries) Sec. 14.

The Honorable,

The Secretary of the Interior.

No. 5

Sir:

As a result of special field examination of Temporary Power Site Withdrawal No. 33 covering Judith River, Montana, I have the honor to recommend the restoration of all public lands to entry, selection, disposal, settlement, or location, and the release from suspension of all existing claims, filings, and entries, in the following list:

Montana Meridian, Montana.

T. 21 N., R. 16 E., Sec. 2, W ½ of NE¼, E½ of NW¼, NE¼ of SW¼, NW¼ of SE¼,
Sec. 12, W½, SW¼ of SE¼,
Sec. 13, N½ of NE¼, SE¼ of NE¼.

This restoration, which covers 721 acres, 481 acres being entered, reduces the area remaining withdrawn in Temporary Power Site Withdrawal No. 33 to 9,276 acres, of which 920 acres is entered.

Very respectfully,

Geo. Otis Smith

Director.

Approved Nov. 9 1909

D

May 25, 1910.

The Honorable,

The Secretary of the Interior.

Sir:

On June 7, 1909, I recommended to you as Temporary Power-Site Withdrawal No. 14, the withdrawal of 160 acres of land on North Fork of the Musselshell River, Montana, believed to control a valuable power-site. It has since been brought to my attention that the site is desired for use as an irrigation reservoir and that the application if granted would preclude the development of water power at this point. Inasmuch as the site if developed to the best advantage would probably not produce over 500 horse-power and the value of the site for irrigation purposes is so much greater, I recommend that the order of withdrawal relating to the following lands be cancelled. The area involved in this recommendation is 160 acres all being entered.

Restoration of lands included in Temporary Power-Site Withdrawal No. 14, June 8, 1909.

POWER-SITE RESTORATION NO. ~~10~~ 11 (by phone to Mails & Files Secretary's Office on June 1, 1910). They will notify G.L.O. if Secy. has not yet approved.

North Fork of Musselshell River, Montana.

Montana Principal Meridian.

T. 10 N., R. 9 E., Sec. 35, S½ of NW¼, N½ of SW¼.

Very respectfully,

Geo. Otis Smith

Director.

Approved May 31, 1910
and sent to General Land Office.

Secretary.

Restoration No. 13.

August 2, 1910.

The Honorable,

The Secretary of the Interior.

Sir:

Field examination of power site reserve No. 69 indicates that because of (1) lack of water, (2) lack of concentrated flow, (3) lack of reservoir capacity, (4) lack of suitable masonry material, (5) lack of suitable foundations, (6) practical certainty of destructive seepage from reservoirs, if any were available, and (7) overshadowing competition of real water powers on the Missouri, Yellowstone, and other rivers within transmission distance, the continued withdrawal from entry of the Smith River lands would be futile and without justification.

Neither is it desirable to hold these lands withdrawn because of their value in connection with possible irrigation. Many of the objections above enumerated hold with respect to the construction of storage reservoirs for irrigation, and there are no irrigable lands so situated that they could be served by such storage. Assuming that the observed flow of the stream, 150 second-feet, is the minimum flow, which it is not, according to the statements of those familiar with the stream, and that it is possible to construct reservoirs which will not have an excessive leakage, the cost of power development on

LAND CLASSIFICATION BOARD FILES.
PLEASE RETURN

this stream will be in excess of $440 per horse power. The cost of the nearby Great Falls power, fully equipped, is $120 per horse power, and that of the Missouri River Power Company is understood to be something like $160. For these reasons I recommend the restoration of the lands included in power site reserve No. 69.

ORDER OF RESTORATION. (No. 13)

Power Site Reserve No. 69,

Smith River, Montana.

So much of the order of withdrawal made heretofore for the purpose of reserving water power sites, as affects the lands hereinafter described, is hereby revoked for the reason that the Director of the Geological Survey reports that field examination shows these lands not to be valuable for water power purposes.

LAND CLASSIFICATION BOARD FILES.
PLEASE RETURN

December 30, 1910.

The Honorable,

The Secretary of the Interior.

Sir:

Recent investigations by this office indicate that a portion of the lands included in Power-Site Reserve No. 100, Big Blackfoot River, Montana, are not valuable for the conservation of water-power or that the title thereto has passed from the United States, and I therefore recommend that the following order of restoration be submitted to the President for appropriate action. The area involved in this restoration is 561 acres, of which 361 acres were reported entered.

Very respectfully,

H. C. Rizer

Acting Director.

December 31, 1910.
Respectfully referred to the President with favorable recommendation.

Secretary.

ORDER OF RESTORATION NO. 31.

Big Blackfoot River --- Montana.

So much of the order of withdrawal made heretofore for the purpose of reserving water-power sites, as affects the lands hereinafter described, is hereby revoked for the reason that the Director of the Geological Survey reports that field examination shows these lands not to be valuable for water-power purposes or that the title thereto has passed from the United States.

HEG-EMD

See Interior letter of
9/27/12 in D-90-Montana

October 5, 1912. Entered Dean

The Honorable,

The Secretary of the Interior.

Sir:

By Executive Order of September 29, 1910, there were withdrawn from entry, as Power Site Reserve No. 151, Flathead Lake, Montana, all portions of certain described public lands "which lie within a belt extending from the lake to 100 feet inland from the high-water mark of 1909." This withdrawal was recommended in view of reports by engineers of the Survey that storage of water in the lake to an elevation nine feet above the high-water mark of 1909 is feasible and by regulating the discharge will greatly increase the power possibilities on Flathead River below the lake.

This withdrawal was modified by Executive Order of September 2, 1912, to the extent of permitting the issuance of patents to lands withdrawn, subject to an easement, to remain in the Government, in the land lying between Flathead Lake and a line 100 feet inland from a contour of elevation nine feet above the high-water mark of 1909.

On August 24, 1912, however, Congress passed the Indian appropriation bill (Public No. 335), which contained a provision,

M.M.

REG.

LAND CLASSIFICATION BOARD.

D-10-a

See Interior letter of
9/27/12 in D-90-Montana

October 5, 1912.

The Honorable,

The Secretary of the Interior.

Sir:

By Executive Order of September 29, 1910, there were withdrawn from entry, as Power Site Reserve No. 123, Flathead Lake, Montana, all portions of certain described public lands "which lie within a belt extending from the lake to 100 feet inland from the high-water mark of 1909." This withdrawal was recommended in view of reports by engineers of the Survey that storage of water in the lake to an elevation nine feet above the high-water mark of 1909 is feasible and by regulating the discharge will greatly increase the power possibilities on Flathead River below the lake.

This withdrawal was modified by Executive Order of September 3, 1912, to the extent of permitting the issuance of patents to lands withdrawn, subject to an easement, to remain in the Government, in the land lying between Flathead Lake and a line 100 feet inland from a contour of elevation nine feet above the high-water mark of 1909.

On August 24, 1912, however, Congress passed the Indian appropriation bill (Public No. 323), which contained a provision,

page eleven:

> That so much of the act of Congress approved March third, nineteen hundred and eleven (Thirty-sixth Statutes at Large, page one thousand and sixty-six), which provides for the reservation of an easement over tracts of land bordering Flathead Lake, Montana, be, and the same hereby is, amended to read as follows: "That an easement in, to, and over all lands bordering on or adjacent to Flathead Lake, Montana, which lie below an elevation of nine feet above the high-water mark of said lake for the year nineteen hundred and nine, is hereby reserved for uses and purposes connected with storage for irrigation or development of water power, and all patents hereafter issued for any such lands shall recite such reservation."

The fact that this legislation was likely to be enacted was not known when the order of modification referred to was prepared. It is evident that the provision of the act of August 24, 1912, quoted above accomplishes the purpose of the withdrawal of September 29, 1910, as it expressly reserves an easement for use in the future storage of water to the elevation considered to represent the full utilization of the lake. In accordance, therefore, with your instructions of September 27, 1912, and in order that lands bordering Flathead Lake may be disposed of under appropriate land laws, I recommend that the following order of restoration be submitted to the President for appropriate action. The area involved in this restoration is approximately 1,500 acres.

Very respectfully,

Geo. Otis Smith

Director.

October , 1912.
Respectfully referred to the President with favorable recommendation.

Acting Secretary.

page eleven:

That so much of the act of Congress approved March third, nineteen hundred and eleven (Thirty-sixth Statutes at Large, page one thousand and sixty-six), which provides for the reservation of an easement over tracts of land bordering Flathead Lake, Montana, be, and the same hereby is, amended to read as follows: "That an easement in, to, and over all lands bordering on or adjacent to Flathead Lake, Montana, which lie below an elevation of nine feet above the high-water mark of said lake for the year nineteen hundred and nine, is hereby reserved for uses and purposes connected with storage for irrigation or development of water power, and all patents hereafter issued for any such lands shall recite such reservation."

The fact that this legislation was likely to be enacted was not known when the order of modification referred to was prepared. It is evident that the provision of the act of August 26, 1912, quoted above accomplishes the purpose of the withdrawal of September 29, 1910, as it expressly reserves an easement for use in the future storage of water to the elevation considered to represent the full utilization of the lake. In accordance, therefore, with your instructions of September 27, 1912, and in order that lands bordering Flathead Lake may be disposed of under appropriate land laws, I recommend that the following order of restoration be submitted to the President for appropriate action. The area involved in this restoration is approximately 1,500 acres.

Very respectfully,

Director.

October , 1912.

ORDER OF RESTORATION NO. 80.

Flathead Lake, Montana.

So much of the orders of withdrawal made heretofore for the purpose of reserving water-power sites, as affects the lands hereinafter described, is hereby revoked.

And it is further ordered that all such lands not otherwise reserved or withdrawn shall become subject to settlement and entry under the laws applicable thereto upon such date and after such notice as may be determined upon by the Secretary of the Interior:

Montana Meridian.

All portions of the following described tracts which lie within a belt extending from Flathead Lake to 100 feet inland from the high-water mark of 1909:

T. 22 N., R. 19 W., Sec. 5, lots 1, 2, 3, and 4;
Sec. 6, lots 1, 2, 6, 8, and 9.

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Power Site Reserve No. 100, Big Blackfoot River, Montana, indicates that the portion of the lands included therein described in the following order of restoration is not valuable for the conservation of water power, and I therefore recommend that the said order of restoration be submitted to the President for appropriate action. The area involved in this restoration is 965 acres.

Respectfully,

Geo. Otis Smith

DEPARTMENT OF THE INTERIOR
WASHINGTON

April 3, 1914

The President:

I inclose herewith a draft of an Executive Order of Restoration restoring lands withdrawn under Departmental Order of July 30, 1909, as Power Site Reserve No. 33, Montana. This withdrawal was confirmed under the act of June 25, 1910 (36 Stat. 847), by Executive Order of July 2, 1910.

By Executive Order of January 21, 1914 (see p. 446) it was conformed to the plat of survey, and as so conformed, the area withdrawn was reduced from 5840 acres to 3604 acres. There was, however, no provision in the order of conformation for the revocation of the order of withdrawal as to the lands omitted from the order of conformation and for the restoration of such lands to settlement and entry.

As there is no objection to such order of restoration, I have the honor to recommend that you sign the draft of the Order herewith.

Very respectfully,

Noted: /s/ Franklin K. Lane

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Power Site Reserve No. 114, Red Rock Lakes, Montana, indicates that the portion of the lands included therein described in the following order of restoration is not valuable for the conservation of water-power, and I therefore recommend that the said order of restoration be submitted to the President for appropriate action. The area involved in this restoration is 15,520 acres.

Respectfully,

Geo. Otis Smith

Director.

April 15, 1914

Respectfully referred to the President with favorable recommendation.

May 15, 1914.

The Honorable,

The Secretary of the Interior.

Sir:

In pursuance of Departmental order of April 25, 1912, providing for description according to new surveys of land included in withdrawals and in order to eliminate from Power Site Reserve No. 10, Madison River, Montana, certain lands which investigation indicates to be not valuable for the conservation of water-power, I recommend the issuance of the following order of modification and restoration, which reduces the area withdrawn 1,680 acres, and conforms the description of the lands to the official plat.

Very respectfully,

Geo. Otis Smith

Director.

July 8, 1914

Respectfully referred to the President with favorable recommendation.

Dean

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Reservoir Site Reserve No. 4, Red Rock River, Montana, indicates that the portion of the lands included therein described in the following order of restoration (Order of Restoration No. 191, Red Rock River) is not valuable for reservoir purposes, and I therefore recommend that the said order of restoration be submitted to the President for appropriate action. The area involved in this restoration is 6,560 acres.

Respectfully,

Geo. Otis Smith

Director.

ORDER OF MODIFICATION AND RESTORATION
No. 280

The orders of withdrawal creating the power site reserves hereinafter described are hereby modified respectively as follows:

MONTANA

Montana Meridian

So much of Temporary Power Site Withdrawal No. 25, Clarks Fork and Tributaries, approved June 26, 1909, and continued by Executive Order of July 2, 1910, creating Power Site Reserve No. 25, as describes lands in Sec. 34, T. 25 N., R. 32 W., is modified to read as follows:

T. 25 N., R. 32 W., Sec. 34, lots 3, 4, 6, 10, and 12.

NEW MEXICO

New Mexico Principal Meridian

So much of Temporary Power Site Withdrawal No. 59, San Juan River, approved November 18, 1909, and continued by Executive Order of July 2, 1910, creating Power Site Reserve No. 59, as describes lands in T. 30 N., R. 7 W., is modified to read as follows:

T. 30 N., R. 7 W., Sec. 3, lot 8, SW¼ of NW¼;
Sec. 4, lot 5, S½ of NE¼, W½ of SE¼;
Sec. 5, E½ of SW¼ of SW¼, SE¼ of SW¼, S½ of SE¼;
Sec. 8, lots 1, 2, and 3, N½ of N½ of NE¼, NW¼;
Sec. 9, N½ of N½ of NW¼;
Sec. 17, lots 1, 2, 3, and 5, NW¼ of NE¼;
Sec. 18, lots 5, 9, 10, and 13, SE¼ of SW¼;
Sec. 19, lots 6, 8, 9, 10, 11, E½ of NW¼, N½ of NE¼ of SW¼;
Sec. 20, lot 2, NW¼ of SW¼.

286 281

OREGON

Willamette Meridian

So much of Temporary Power Site Withdrawal No. 77, Snake River, approved December 4, 1909, and continued by Executive Order of July 2, 1910, creating Power Site Reserve No. 77, as describes lands in T. 8 S., R. 48 E., is modified to read as follows:

T. 8 S., R. 48 E., Sec. 4, lots 1, 4, 5, and 6;
Sec. 8, lot 1, NE¼ of SE¼;
Sec. 9, lots 1, 2, and 3;
Sec. 17, lots 1, 2, 3, 4, 5, and 6, SE¼ of NW¼;
Sec. 18, SE¼ of SE¼;
Sec. 19, lots 1, 2, 3, 4, 5, and 6, NW¼ of NE¼;
Sec. 20, lot 1;
Sec. 30, lots 1, 2, and 3.

And it is further ordered that so much of the lands described as affected by the foregoing modification, as are not described in the modified reading and are not otherwise reserved or withdrawn, are hereby restored to the public domain and shall become subject to settlement and entry under the laws applicable thereto upon such date and after such notice as may be determined upon by the Secretary of Interior.

JUN 13 1919

The Honorable,

The Secretary of the Interior.

Sir:

In pursuance of Departmental order of April 25, 1912, providing for description according to new surveys of land included in withdrawals and in order to eliminate from Power Site Reserve No. 510, Big Hole River, Montana, certain lands which have passed to patent, I recommend the issuance of the following order of modification and restoration (Order of Modification and Restoration No. 281, Big Hole River), which conforms the description of the lands to the official plat, and reduces the withdrawn area 840 acres.

Respectfully,

Director.

Memo

AUG 16 1919

The Honorable,

The Secretary of the Interior.

Sir:

Certain lands included in Power Site Reserves Nos. 330 and 340, which were segregated to the State of Idaho under Carey Act List No. 13, proof of which has now been made, and certain lands included in Power Site Reserve No. 397, which investigation indicates to be not valuable for the conservation of water power, have been included in the following order of restoration (Order of Restoration No. 286), and I therefore recommend that the said order of restoration involving approximately 160 acres in Idaho, and approximately 120 acres in Montana, be submitted to the President for appropriate action.

Respectfully,

Geo Otis Smith

Director.

Respectfully referred to the President with favorable recommendation.

Memo

OCT 25 1921

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Power Site Reserves Nos. 115, and 420, Big Horn River, Montana, indicates that the portion of the lands included therein described in the following order of restoration (Order of Restoration No. 310, Big Horn River, Montana), involving an area of approximately 400 acres in Power Site Reserve No. 115 and 180 acres in Power Site Reserve No. 420, is not valuable for the conservation of water power, and I therefore recommend that the said order of restoration be submitted to the President for appropriate action.

Respectfully,

Map

I concur in the foregoing recommendation.

Memo

DEC 15 1921

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Power Site Reserves Nos. 33, 37,* and 56, Judith River, Montana, indicates that the title to certain lands included therein, described in the following order of restoration (Order of Restoration No. 314, Judith River, Montana), involving an area of approximately 1,708 acres, has passed from the United States by patent. I therefore recommend that the said order of restoration be submitted to the President for appropriate action.

Respectfully,

Map

Geo. Otis Smith

Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

Dec. 22, 1921

Respectfully referred to the President with favorable recommendation.

Secretary.

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands included in Power Site Reserve No. 397, Flathead River and Tributaries, Montana, indicates that the portion of the lands included therein described in the following order of restoration (Order of Restoration No. 336, Flathead River and Tributaries, Montana), involving an area of approximately 360 acres, is not valuable for the conservation of water power. I therefore recommend that the said order of restoration be transmitted to the President for appropriate action.

Respectfully,

Philip S. Smith,

Acting Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

Respectfully referred to the President with favorable recommendation.

April 19, 1924.

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of the status of lands involved in Power Site Reserves Nos. 9, 141, and 177, Missouri River, Montana, indicates that certain of the lands included therein, described in the following order of restoration (Order of Restoration No. 379, Missouri River, Montana), involving an area of approximately 212 acres, have passed to patent, being embraced in claims initiated prior to withdrawal or pursuant to express provisions of law. I therefore recommend that the said order of restoration be submitted to the President for appropriate action.

Respectfully,

Geo. Otis Smith
Director.

I concur in the foregoing recommendation.

April 23, 1924
Respectfully referred to the President with favorable recommendation.

Commissioner, General Land Office.

Acting Secretary.

JUN 4 - 1924

The Honorable,

The Secretary of the Interior.

Sir:

An application for restoration of certain lands on Big Blackfoot River, Montana, from Power Site Reserve No. 100, has been referred to the Geological Survey by a Representative in Congress. The records of the Survey show that the lands are crossed by the Chicago, Milwaukee, & Puget Sound Railway, whose right of way closely parallels the river, and that the development of power at this site would be too expensive to be feasible. The tract included in Power Site Reserve No. 100, Big Blackfoot River, Montana, described in the following order of restoration (Order of Restoration No. 387, Big Blackfoot River, Montana), involving an area of approximately 40 acres, is not valuable for the conservation of water power. I therefore recommend that the order of restoration be submitted to the President for appropriate action.

Respectfully,

Director.

June 6, 1924
I concur in the foregoing recommendation.

Commissioner, General Land Office.

AUG 22 1924

The Honorable,

The Secretary of the Interior.

Sir:

In connection with field operations during 1923 by engineers of the Geological Survey, certain lands along Madison River, Montana, included in Temporary Power Site Reserve No. 10 of May 29, 1909, made permanent July 2, 1910, Power Site Reserve No. 184 of April 19, 1912, as interpreted by departmental order of April 22, 1922, and Power Site Reserve No. 464 of December 15, 1914, were found to be so situated with reference to the river as to be unaffected by development of the potential power resources which served as a basis for creating the power site reserves. These withdrawn lands which are described in the following order of restoration (Order of Restoration No. 389, Madison River, Montana) involving an area of 8,977 acres, therefore, are not valuable for the conservation of water power. The records of the Survey indicate that none of the lands are included in other withdrawals made on recommendation of this office. I accordingly recommend that the order of restoration

NOV 3 - 1925

The Honorable,

The Secretary of the Interior.

Sir:

Field examination of lands included in Power Site Reserve No. 515, Big Hole River, Montana, indicates that certain of them, described in the following order of restoration (Order of Restoration No. 402, Big Hole River, Montana) involving an area of approximately 600 acres, are situated at elevations so high above the river that power development would not affect them. The records of the Geological Survey indicate that none of the lands are included in other withdrawals made on its recommendation. I recommend that this order be submitted to the President for appropriate action.

Respectfully,

Geo. Otis Smith

Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

Respectfully referred to the President with favorable recommendation.

THE SECRETARY OF THE INTERIOR
WASHINGTON

(from Drennan)

May 29, 1930

Through the Department of State.

The President,

The White House.

My dear Mr. President:

Investigation of status of lands embraced in Power-Site Reserve No. 397, Flathead River and tributaries, Montana, indicates that title to certain of them, described in the inclosed draft of Executive Order (Power-Site Restoration No.440, Montana), involving an area of approximately 1,073 acres is stated by the Commissioner of the General Land Office to have vested in the State under the act of April 23, 1904 (33 Stat., 302), prior to withdrawal.

I recommend that you sign the inclosed draft of order and cause it and the accompanying copy thereof to be forwarded to the Secretary of State.

Very truly yours,

Inclosure 29358:

Two carbon copies complete to General Land Office
Two carbon copies of order to Department of State
One carbon copy to Federal Power Commission

8

AUG 21 1924

The Honorable,

The Secretary of the Interior.

Sir:

Certain lands in Montana on Red Rock River selected by the Director of the Geological Survey February 27, 1891, under the act of October 2, 1888 (25 Stat., 527), are withdrawn as Montana Reservoir Site Reserve No. 27. According to data obtained in the course of field investigations by engineers of the Geological Survey, another reservoir site has been located on Red Rock River about six miles above the withdrawn land which has been developed to a capacity in excess of that obtainable at the withdrawn site. These data also indicate that the upper site is susceptible of further development to provide storage capacity many times greater than is obtainable at the withdrawn site at a lower cost per acre-foot of storage provided. The upper site will provide all storage regulation necessary in the involved section of Red Rock River and is protected by Power Site Reserve No. 10 and Reservoir Reserve No. 4 under the act of June 25, 1910 (36 Stat., 847). In my opinion, therefore, the withdrawn land is not needed for the construction and maintenance of a reservoir.

JFD:STU.
August 20, 1924.

LAND CLASSIFICATION BRANCH

Reservoir Site Restoration No. 8

The Secretary of the Interior.

In a letter dated July 29, 1936, the Bureau of Reclamation concurs in that opinion. Accordingly, approval of the following order of restoration (Reservoir Restoration No. 8, Red Rock Creek, Montana), involving an area of approximately 3,894 acres is recommended in compliance with the provisions of the act of March 3, 1891 (26 Stat., 1095). A part of the land in this order of restoration already has passed to patent being embraced in claims initiated prior to withdrawal or pursuant to express provisions of law. The records of the Survey indicate that none of the lands are included in other withdrawals made on recommendation of this office.

Respectfully,

Acting Director.

I concur in the foregoing recommendation.

Commissioner, General Land Office.

RESERVOIR SITE RESTORATION NO. 8

Red Rock River, Montana.

It appearing that the hereinafter described land on Red Rock River, Montana, selected by the Director of the Geological Survey February 27, 1891, is now withdrawn and included in Montana Reservoir Site No. 27, under the act of October 2, 1888 (25 Stat., 527), and it further appearing that said land is not actually necessary for the construction and maintenance of reservoirs, the said withdrawal is hereby revoked in compliance with the provisions of the act of March 3, 1891 (26 Stat., 1095), in so far as it affects the following land:

SEP 1 - 1936

The Honorable,

The Secretary of the Interior.

W. C. Mendenhall

Sir:

Certain lands were selected by the Director of the Geological Survey February 27, 1891, as Reservoir Site No. 37, Lebo Lake, Montana. They were segregated from disposal by Departmental Order of October 27, 1891, and continued withdrawn by Departmental Order of August 18, 1894 (89823-1894), under the provisions of the act of October 2, 1888.

By Departmental Order of November 3, 1915, on the recommendation of the Bureau of Reclamation part of the withdrawn land was restored to entry. It is believed that the intention at that time was to revoke the segregation in its entirety but the Order of November 3, 1915, listed only the surveyed lands whereas the original withdrawal also reserved "such portion of sec. 6, T. 6 N., R. 14 E., as, according to map of survey approved November 24, 1877, was unsurveyed". The restored land was not needed for reservoir purposes by the United States nor is it apparent that the remaining land is needed for such purposes by the United States although the land is occupied by a reservoir built by a private irrigation company. Accordingly it is recommended that the withdrawal as it relates to the above described land be revoked. Such action will permit the land to be taxed.

The accompanying order of restoration (Reservoir Site Restoration No. 15, Lebo Lake, Montana) includes the

SEP 1 - 1936

The Honorable,

The Secretary of the Interior.

Sir:

Certain lands were selected by the Director of the Geological Survey February 27, 1891, as Reservoir Site No. 37, Lebo Lake, Montana. They were segregated from disposal by Departmental Order of October 27, 1891, and continued withdrawn by Departmental Order of August 16, 1894 (89823-1894), under the provisions of the act of October 2, 1888.

By Departmental Order of November 3, 1915, on the recommendation of the Bureau of Reclamation part of the withdrawn land was restored to entry. It is believed that the intention at that time was to revoke the segregation in its entirety but the Order of November 3, 1915, listed only the surveyed lands whereas the original withdrawal also reserved "such portion of sec. 6, T. 6 N., R. 14 E., as, according to map of survey approved November 24, 1877, was unsurveyed". The restored land was not needed for reservoir purposes by the United States nor is it apparent that the remaining land is needed for such purposes by the United States although the land is occupied by a reservoir built by a private irrigation company. Accordingly it is recommended that the withdrawal as it relates to the above described land be revoked. Such action will permit the land to be taxed.

The accompanying order of restoration (Reservoir Site Restoration No. 15, Lebo Lake, Montana) includes the

land remaining withdrawn. The records of the Geological Survey indicate that none of the land is included in other withdrawals made on recommendation of this office.

modification No. 23

August 14, 1912.

Entered
Dean

The Honorable,

The Secretary of the Interior.

Sir:

On July 15, 1909, on recommendation of the Geological Survey, the Secretary of the Interior withdrew as Temporary Power Site Withdrawal No. 29, Kootenai River, Montana and Idaho, certain lands adjacent thereto, of which a portion is within the boundaries of the Kootenai National Forest. This order of withdrawal was continued under the provisions of the act of June 25, 1910 (36 Stat., 847), by Executive Order of July 2, 1910, as Power Site Reserve No. 29. The Acting Secretary of Agriculture, by letter dated August 10, 1912, which has been referred to the Survey, states that it is desired to issue a preliminary water-power permit under the act of February 15, 1901 (31 Stat., 790), and the regulations of the Department thereunder, for the use of a part of the lands affected by this withdrawal and lying within the national forest, for the construction of a hydro-electric power plant.

I therefore recommend that Power Site Reserve No. 29 be so modified as to permit the issuance by the Secretary of Agricul-

Modification No. 24

August 22, 1912.

The Honorable,

The Secretary of the Interior.

Sir:

By Executive Order of September 29, 1910, there were withdrawn from entry, as Power Site Reserve No. 151, Flathead Lake, Montana, all portions of certain described public lands "which lie within a belt extending from the lake to 100 feet inland from the high-water mark of 1909."

By the act of Congress approved March 3, 1911 (36 Stat., 1066), it was provided that:

> In the issuance of patents for all tracts of land bordering upon Flathead Lake, Montana, it shall be incorporated in the patent that "this conveyance is subject to an easement of one hundred linear feet back from a contour of elevation nine feet above the high-water mark of the year nineteen hundred and nine of Flathead Lake, to remain in the Government for purposes connected with the development of water power."

It appears from the records of the Department that the withdrawn area is in part embraced in certain State selections, Indian allotments, villa sites, and other forms of appropriation not excepted from the force and effect of withdrawals made under the provisions of the act of June 25, 1910 (36 Stat., 847). The Honorable,

The Secretary of the Interior.

Sir:

The Great Falls Power Company has made application under the act of March 4, 1911 (36 Stat., 1253-1254), for right of way for two power transmission lines and a telephone line from a point in Sec. 35, T. 21 N., R. 4 E., to a point in Sec. 8, T. 3 N., R. 7 W., Montana Meridian, Montana.

This right of way crosses Power Site Reserves Nos. 9, 141, and 164. Since the power transmission lines as constructed will not interfere materially with the use of the withdrawn lands for the development of water power, I recommend that, in order to permit the allowance of this application, the attached draft of an Order of Modification of the Power Site Reserve be submitted to the President for his signature.

Very respectfully,

Geo. Otis Smith

OR INFORMATION

VLB

Dear Mr. President:

October 10, 1911, George J. Ford made homestead entry 0527 in the Missoula, Montana, land office for 138.09 acres of land.

It is found that the entry conflicts in part with power site withdrawal made June 26, 1909, and continued by Executive order of July 2, 1910. An investigation of this case has been made by a special agent of the Department and it is found that the entryman established his residence upon this land in 1884, and has lived there continuously since that time, having a substantial dwelling house, barn, chicken house, fences and twenty-two acres of land in cultivation. The entryman who is now about seventy years of age would, because of his settlement upon the land many years prior to the power site withdrawal, have been entitled under the law to make the entry and receive patent without modifica-

AS REWRITTEN IN THE
SECRETARY'S OFFICE.

Mod. No. 294

tion of the withdrawal, but for the fact that he failed to place his claim of record within ninety days after survey of the land.

The power value of the tract involved is doubtful and in view of the entryman's equities and of the fact that this has been his home for thirty-five years, I have the honor to recommend that the power site withdrawal be modified so that his claim may proceed to patent if otherwise regular.

A form of order is attached for your consideration.

Cordially yours,

(Sgd.) FRANKLIN K. LANE

Secretary.

The President,

The White House.

MAY 23 1919

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with instructions contained in a letter signed by the First Assistant Secretary, dated August 3, 1917 (D-34691), consideration has been given the petition by R. A. Maier of Reichle, Montana, to make homestead entry on the lands listed in the following order of modification. The power site affected has recently been examined in the field by an engineer of the Survey and from the information now available it appears that the tracts desired by the petitioner may be restored without material detriment to the power possibilities involved. Accordingly, I have prepared and transmit herewith an order of modification designed to vacate approximately 160 acres of land in Power Site Reserve No. 515, Big Hole River, Montana, to the extent of enabling the petitioner to perfect his application to make homestead entry thereon and to permit the subsequent issuance of patent therefor if otherwise regular and satisfactory.

Respectfully,

Walp

ORDER OF MODIFICATION No. 344

OF POWER SITE RESERVE NO. 741,

Mud Creek, Tributary of Flathead River, Montana.

The order of withdrawal of even date creating Power Site Reserve No. 741, affecting lands in Montana, is hereby modified to the extent of authorizing the Secretary of the Interior to issue permits to Fred Herzog and John N. Saxton, an association to occupy and use certain lands of the United States in T. 22 N., R. 19 W., Montana Meridian, Montana, for the maintenance and operation of a power conduit and related works for power purposes.

President

May 14 1920.

Power Site Reserve No. 741
Modification of P.S.R. 741.

ORDER OF MODIFICATION

OF POWER SITE RESERVE NO. 741,

Mud Creek, Tributary of Flathead River, Montana.

The order of withdrawal of even date creating Power Site Reserve No. 741, affecting lands in Montana, is hereby modified to the extent of authorizing the Secretary of the Interior to issue permits to Fred Herzog and John M. Saxton, an association to occupy and use certain lands of the United States in T. 22 N., R. 19 W., Montana Meridian, Montana, for the maintenance and operation of a power conduit and related works for power purposes.

President

The Honorable,

The Secretary of the Interior.

Sir:

In order that power permits may be issued for the development of a power site on Crow Creek, Montana, I recommend the issuance of the following order of modification.

Respectfully,

Geo. Otis Smith

Director.

Respectfully referred to the President with favorable recommendation.

LAND CLASSIFICATION BOARD

ORDER OF MODIFICATION No. 348

Power Site Reserve No. 397

Flathead River and Tributaries, Montana.

Original returned to L. C. B. for enclosure Ex. Div.

The order of withdrawal of September 10, 1913, creating Power Site Reserve No. 397, affecting lands adjacent to Crow Creek, Montana, is hereby modified to the extent of authorizing the Secretary of the Interior to issue permits to the Town of Ronan, Montana, under the provisions of the act of February 15, 1901 (31 Stat., 790), to occupy and use

DJG*HS

June 24, 1920

My dear Mr. President:

There is pending before me an application (Land Contracts 65362-19) by the County Commissioners of Sanders County, Montana, for permission to open a public highway across certain Indian lands in Montana in Power Site Reserve No. 397, created by Executive Order of September 10, 1913. In my judgment, the public interests would be injuriously affected by the approval of this application unless the applicant county agreed, upon demand of the Secretary of the Interior, at its own cost and expense to change the location of so much of the proposed highway as to make such location not incompatible with the utilization of the said lands for power purposes. A stipulation in which these conditions are embodied, has been executed by the Commissioners of the applicant county in consideration of and as a prerequisite to the modification of the power-site reserve affected by the application.

A copy of the stipulation is transmitted herewith, and in view of the action of the applicant, I recommend the issuance of the attached order of modification.

Cordially yours,

retary

POWER SITE MODIFICATION NO. 397

This order is to modify an Executive order creating power-site reserve so as to permit the approval of an application of the town of Ronan, Montana, for a right of way for dam, power house, and other works for generating electrical power to be used for municipal purposes. The withdrawal was to prevent the passing of the title to the lands from the United States. The modification does not defeat this purpose, but is necessary to enable us to give a revocable permit for the right of way for the power works. The fee to the land remains in the United States. This use of the land will aid a small municipality in obtaining light and power for town purposes, and in my view is in the public interest.

The Honorable,

The Secretary of the Interior.

Sir:

Investigation of lands embraced in Power Site Classification No. 167, Montana No. 8, a withdrawal covering a right-of-way for a transmission line, indicates that certain tracts listed in the attached order (Order of Cancelation No. 83, Transmission Line, Montana) are located so far from the transmission line that no portions of them are affected. I recommend the approval of this order which involves no change in the area withdrawn.

The records of the Geological Survey indicate that none of the lands are affected by other withdrawals made on its recommendation.

Respectfully,

W. C. Mendenhall

NOV 27 1928

The Honorable,

The Secretary of the Interior.

Sir:

In pursuance of departmental order of April 25, 1912, providing for descriptions according to new surveys of lands included in withdrawals, I recommend the approval of the following order (Power Site Interpretation No. 128) which conforms the description of certain lands in T. 2 N., R. 21 W., M. M., Montana, included in Power Site Reserve No. 110, Bitterroot River, to the official plat. The area heretofore recorded as withdrawn in the township described is 520 acres, but in terms of the official survey as construed herein is found to be 913 acres.

Respectfully,

Director.

I concur:

Commissioner, General Land Office.

FEB 7 - 1941
GEOLOGICAL SURVEY

Mr. Thos. F. Corbally,
Register, District Land Office,
Great Falls, Montana.

My dear Mr. Corbally:

An extension survey in T. 4 S., R. 8 W., Principal Meridian, was accepted by this office on April 6, 1940, under Group 363, Montana. The survey embraces all or parts of Secs. 5 to 9, 16 to 22, 26 to 29 and 33 to 36, inclusive. You will receive the triplicate copy of the plat within the near future.

The records of this office show the following withdrawals invading the area surveyed under this group, which are described as follows:

Power Site Reservation No. 515
Sec. 20, SW¼ SW¼

Power Site Classification No. 103
Sec. 28, SW¼;
Sec. 29, S½ NE¼, E½ NW¼, NE¼ SW¼;
Sec. 33, N½ NE¼;
Sec. 34, S½ NW¼.

Since the new plat provides a more competent basis for description, these withdrawals are hereby adjusted in compliance with the instructions of August 12, 1913 (42 L. D. 318), to embrace the following described lands in terms of the extension survey:

Power Site Reservation No. 515
Sec. 20, lot 4

Power Site Classification No. 103
Sec. 28, lots 3, 4, E½ SW¼;
Sec. 29, S½ NE¼, E½ NW¼, NE¼ SE¼;
Sec. 33, lots 1, 2;
Sec. 34, lots 5, 6.

MEMORANDUM for the Register,
District Land Office,
Great Falls, Montana.

The triplicate supplemental plat of sec. 35, T. 29 N., R. 9 W., P.M., Montana, accepted November 21, 1942, will be forwarded to you in the near future. This plat, which shows the corrective survey of the meanders of Birch Creek through this section with resultant new lottings, in part, was prepared to accommodate Blackfeet Allotment No. 80.

The records of this office show that original lots 5, 6, 7, and 9 of sec. 35, among other lands, were withdrawn under Power Site Reserve No. 276 by Executive Order of June 4, 1912.

In terms of the supplemental plat, the withdrawal as to sec. 35 is described as follows, the description being the same as to the remainder of the withdrawal:

Principal Meridian

T. 29 N., R. 9 W., sec. 35, lots 11, 12, 13, 14, SW¼SW¼, and NW¼SE¼.

Please post your records accordingly. This action is in compliance with the instructions of the Assistant Secretary, dated August 31, 1942.

Wolfsohn

CONSERVATION BRANCH RECEIVED NOV 16 1945 GEOLOGICAL SURVEY

Power Site Reserve No. 9;
Plat transmittal: Group 402,
Montana

MEMORANDUM for the Register,
District Land Office,
Great Falls, Montana

NOV 14 1945

A survey of three islands in the Missouri River in secs. 25, 26, and 35, T. 18 N., R. 1 W., Principal Meridian, Montana, has been made by this office and was accepted on August 17, 1945.

The records of this office show that, in addition to lands in other townships, lots 2, 3, 5, 6, and 7, and islands adjacent thereto, in sec. 25 and lot 4 sec. 26 of this township were withdrawn by Executive Order of July 2, 1910, as Power Site Reserve No. 9. Lots 2, 3, 5, 6, and 7 sec. 25 were restored by Executive Order of July 27, 1923--Restoration No. 345.

In terms of the original survey and the present survey, which provides legal designations and areas for the islands adjacent to the described lands in sec. 25, the existing power site reserve therein is now described as follows:

Principal Meridian

HELLINGER
NOV 16 1945

T 18 N., R. 1 W.,
sec. 25, lots 8 and 9;
sec. 26, lots 4 and 5

You are requested to post your records accordingly. This action is in compliance with the instructions of the Assistant Secretary of August 31, 1942.

The triplicate copy of the plat of this survey is being forwarded to your office under separate cover by registered mail. Instructions as to the official filing of this plat will be issued at a later date.

A return receipt is requested in accordance with amended regulations (Circular 1436b, Federal Register, October 20, 1945, page 13076).

MAR 27 1946

Power Site Reserve No.
141, Group 115, Montana

MEMORANDUM for the Register,
District Land Office,
Great Falls, Montana.

The triplicate plat of the dependent resurvey of certain section lines in T. 10 N., R. 1 W., Principal Meridian, Montana, accepted December 20, 1945, is being forwarded for filing in your office.

The records of this office show that certain lands in secs. 3, 11, 22, 23, 24, and 26 of this township, among others, were embraced in Temporary Power Site Withdrawal No. 141 on May 6, 1910, approved under Power Site Reserve No. 141 by Executive Order of July 10, 1910. This order was revoked as to the lands withdrawn in secs. 22 and 23 by Orders of Restoration Nos. 345 and 379 dated July 27, 1923 and April 21, 1924, respectively.

As a result of a relotting in sec. 3 on the resurvey plat, this withdrawal is now described as follows:

	Initials	Date
Noted by ~~amber~~	C.M.	4-15-46
Entered in ledger	C.M.	4-15-46
Plotted on twp. cards		
Plotted on safety map

CONSERVATION BRANCH
RECEIVED
APR - 6 1946
GEOLOGICAL SURVEY

Amended description;
Power Site Reserve No.
141, Group 415, Montana

APR 4 - 1946

MEMORANDUM for the Register,
District Land Office,
Great Falls, Montana.

Reference is had to our memorandum of March 27 which provides a description of Power Site Reserve No. 141, approved by Executive Order of July 10, 1910, as amended by Orders of Restoration Nos. 345 and 379, dated July 27, 1923 and April 24, 1924, respectively, in terms of the plat of the partial dependent resurvey in T. 10 N., R. 1 W., Principal Meridian, Montana, accepted December 20, 1945.

A clerical error has been noted in that the new lotting described in section 6 should be described as in section 3, so that the description of the withdrawal in terms of this resurvey plat is as follows:

Principal Meridian

T. 10 N., R. 1 W.,
sec. 3, lot 16;
sec. 11, S½SW¼;
sec. 24, W½NE¼;
sec. 26, SE¼SE¼

You are requested to note this correction on your records.

Memorandum

To: Regional Administrator, Billings, Montana

From: Chief, Branch of Surveys

Subject: Power Site Reserve No. 9

Under separate cover by registered mail the original plat of the survey of an island in secs. 17 and 20, T. 17 N., R. 1 W., P.M., Montana, accepted September 22, 1949, together with the usual sales copies, is being forwarded for the files of the survey office and the triplicate for the land office. This survey was made upon the application of Ted E. Collins on behalf of the Great Northern Railway Company. Instructions as to the official filing of this plat in the land office will be issued at a later date.

According to our records, an island in these sections, in addition to lands in secs. 9 and 10, was withdrawn under Power Site Reserve No. 9 by Departmental Order of May 29, 1909, confirmed by Executive Order of July 2, 1910.

Inasmuch as it appears that the island referred to is the one now returned as surveyed, the withdrawal as to this township is now described as follows:

	Initials	Date
Noted by author	CAM.	3-27-50

Memorandum

To: Regional Administrator, Region III, Billings, Montana

From: Chief, Branch of Surveys

Subject: Power Site Classification No. 47
First Form Withdrawal--Hungry Horse Project
Group 360 Montana

Under separate cover by registered mail the original plat together with the usual sales copies of the extension survey in T. 30 N., R. 19 W., P.M., Montana, accepted July 23, 1952, is being forwarded for the Survey Office files and the triplicate original plat for the Land Office. This survey was made upon the request of the Forest Service.

In accordance with Order No. 46 Reg. III sec. 2.14(b), approved August 20, 1951, action as to the preparation and publication in the Federal Register of notice of the official filing of this plat may now be taken by the Manager. The date of official filing should be promptly reported to the Director.

The records of this office show that in so far as title thereto remains in the United States, certain described lands in this township, among others, i. e., every smallest legal subdivision any portion of which, when surveyed, shall lie below the 3500-foot contour, were withdrawn under Power Site Classification No. 47 by Order of August 2, 1922.

This extension survey embraces the east half of the township in addition to sec. 33. So much of this withdrawal, therefore, as involves lands in the east half, or more particularly in secs. 22, 23, 25, 26, 27, 35, and 36 is now described as follows:

Principal Meridian

T. 30 N., R. 19 W.,
sec. 22, lots 1, 2, 3, 4, 5, N½SW¼, and SE¼SE¼;
sec. 23, SE¼SE¼;
sec. 25, lots 1, 2, 3, and E½SW¼;
sec. 26, all;
sec. 27, lots 1, 2, 3, 4, 5, 6, SW¼NE¼, and NE¼SE¼;

sec. 35, lot 1 and SE¼NE¼;
sec. 36, lots 1 to 10, inclusive, N½NE¼, NE¼NW¼, NW¼SW¼, SE¼SW¼, NE¼SE¼, and S½SE¼

By order of June 30, 1948, certain lands in secs. 9, 16, 22, 23, 26, and 27 of this township were withdrawn under the first form of withdrawal in connection with Hungry Horse Project, Montana.

In view of the extension survey in the east half of the township, so much of this withdrawal as involves lands in secs. 22, 23, 26, and 27, is now described as follows:

Principal Meridian

T. 30 N., R. 19 W.,
sec. 22, lots 1 to 5, inclusive, NW¼, SE¼SE¼, and N½S½;
sec. 23, S½;
sec. 26, lots 1, 2, 3, 4, 5, 6, 7, 8, N½NE¼, and NE¼NW¼;
sec. 27, lots 1 to 6, inclusive, SW¼NE¼, and S½NW¼

These lands are inclusive of the lands in secs. 22, 26, and 27 withdrawn on November 29, 1946, under first form of withdrawal--Hungry Horse Project, Montana.

It is requested that the records of the Land Office be posted accordingly. This action is in compliance with the Assistant Secretary's instructions of August 31, 1942.
